Press Release

INC. Magazine 5000 America's Fastest Growing Companies

Freeport, New York., December 17, 2009

Freeport, New York., December 17, 2009

Access Display Group, Inc., a leading designer and manufacturer of changeable poster displays, signage frame and other display fixture solutions for visual merchandising and visual display, is named to Inc. Magazine's 5000 Fastest Growing Private Companies in America.

Inc. 5000 companies are decided after extensive screening and interviews by reporters and writers for Inc.com, and based on revenue growth. Inclusion on the list is considered to be one of the most prestigious awards for high-growth companies in the private sector. In addition, the overall list was segmented with Access Display Group (ADG) listed at #11 for this year's top growing manufacturers in New York State.

Boasting an 82.2% sales increase over the last three years, Access Display Group has made major strides in just the past several years since its foundation in 1992. The company attributes this success to its expanding product lines and maximizing marketing efforts with both resellers and online buyers –within every type of industry.

"We are honored to be among the prestigious Inc. 5000 list" stated Charles Abrams, founder and President of Access Display Group. "Even with the economic turmoil this country has gone through over the past two years, ADG has managed to move forward and actually show growth –an accomplishment we attribute to our loyal customers, dedicated staff, and our commitment to customer service. ADG is also committed to further expand our display solutions to meet the ever-growing needs and challenges for innovative visual display products, especially within today's tight capital expenditures and budget limitations."

About the Inc. 5000 List

An extension of Inc. magazine's annual Inc. 500 list, the 5000 list catches many businesses that are too big to grow at the pace required to make the Inc. 500, as well as a host of smaller firms. Taken as a whole, these companies represent an overview of the entrepreneurial power of the country. For its third annual list, aggregate revenue reported by the Inc. 5000 totaled \$214 billion, up nearly 16% from the previous year. Visit <http://www.inc.com/inc5000/2009/the-full-list.html> for the 2009 list of the Inc. 5000.

Inc. 5000 Methodology

The Inc. 500|5000 is ranked according to percentage revenue growth from 2005 through 2008. To qualify, companies must have been founded and generating revenue by the first week of 2005, and therefore able to show four full calendar years of sales. Additionally, they have to be U.S.-based, privately held, for profit, and independent -- not subsidiaries or divisions of other companies -- as of December 31, 2008 (a number of companies on the list have gone public or been acquired since that date). Revenue in 2005 must have been at least \$200,000, and revenue in 2008 must have been at least \$2 million.
